SUMMARY

Former U.S. military veteran with 10+ years of experience in electronic surveillance systems and network connectivity. Highly proficient technical skills and troubleshooting abilities while maintaining rapport with various customers with various needs. Accomplished measurable results in a fast-paced, dynamic environment. While working in the Air Force I was accountable for training 4 personnel while overseeing over $15M worth of communications assets in overseas bases. I am motivated to develop full-stack applications with heart. Eager to join an innovative team with a passion to learn and develop software solutions for real world problems.
